1. Home Page

The Home page will show the clothes' categories like winter/summer, male/female/kids, skirt/short/jeans, etc. Once the customer clicks one of the categories in the home page, all the clothes belong to that category will be displayed.

The Home page contains Sign Up/In button, Sign In button for customers who already registered the system and Sign Up button for customers who will register the system for the first time. Pressing Sign Up/In button will direct customers to Sign In page. If the customer has no account, they should click Create Account button and the system will direct customers to the Sign Up page. The home page also contains About Us and Contact Us buttons. In About Us page, there will be general information related with the company, headquarter's address, tax code and social media links. Contact Us page will be used for our customers to get in touch with officials. Our Centers page will show our stores' addresses and locations all over the globe. And lastly, the shopping cart symbol will direct customers to the products they add into their cart.

2. Sign Up Page

In Sign Up page, customers can register into the website by filling the required fields like name, e-mail, password, phone and address. After filling these fields, the customer can click Register button and the customer will be registered into the system. Customers who already has an account can click the Already Register button and go to the Sign In page.

3. Sign In Page

In Sign In page, customers who has an account, can sign in the website by filling the e-mail and password. If the customer forgot his/her password, can click the Forget Password button ==and go to the password reset page.== Customers who doesn't have an account can click the Create Account button and directed to the Sign Up page.

4. About Us Page

5. Contact Us Page

In Contact Us page, the customer can get in touch with the officials for any kind of request, complain, suggestion or else. They can fill the e-mail, name and message fields and press the Send Message button. After pressing the button, the system will send an automatic e-mail to the address customer gave that the message is delivered and will be replied as soon as possible.

6. Our Centers Page

7. Admin Page

The Admin Page consists of 3 main section; Total Products, Purchased Products, and Registered Customers. With these 3 sections, the website admins can see and control the products and customers. Admins can see the total products they have, how many products they sell and total registered customers with all the details.
